## Automated Retailing

OPTIONS

This vending machine comes standard with conveyor belts on the bottom shelf.

Designed to accommodate irregularly sized products, this enhanced flexibility optimizes the machine's merchandising capabilities, enabling a broader product assortment to better align with diverse consumer demands.

## DESCRIPTION

The **VC 8012-10S ADA** Ambient Merchandiser is a fully modular and highly customizable vending solution, designed to accommodate a wide variety of non-traditional products such as tobacco, CBD and vape items, personal care products, electronics, books, PPE supplies, and more (*customization fees apply*).

Factory-equipped with advanced backend management software, it allows operators to monitor sales and inventory, run reports, and receive real-time alerts in case of a malfunction. It supports a wide range of modern payment platforms, including **GrabPay, Touch 'n Go, Boost, Maybank QR, PayWave, PayRange, Google Pay, Apple Pay,** and others.

Its modular shelving system allows for adjustable shelf heights and selection spacing, making it ideal for products of varying sizes. The standard configuration can be customized to include additional conveyor belt selections or replaced entirely with spirals to suit your needs (custom charges apply).

Additional features include a Guaranteed Vend System, bright LED lighting, and a compact design that fits through standard commercial doorways.

**Full customization is available to meet your specific vending needs.**
