DESCRIPTION

The **VC 9007-10C ADA Compliant Mini Flex Combination Machine** is a compact solution ideal for maximizing revenue in small spaces. Offering a diverse selection of products, this machine supports a wide range of items, from specialty drinks like Starbucks and single-serve cocktails to traditional soft drinks. With a double-layered, electrically heated glass door that prevents fogging and condensation, it ensures clear visibility of products at all times.

Designed for durability, the machine's body is explosion and smash-resistant, capable of withstanding up to one ton of external force. It features a flexible modular design, allowing for customizable shelf heights with a maximum configuration of 6 shelves. Additionally, its unique refrigeration system allows different temperature ranges.

The VC 9007-10C is **compatible with a variety of modern payment platforms**, including Google Pay, Apple Pay, Grab Pay, Paywave, and more, offering seamless transactions. It also includes a lockable cash box, LED lighting, and a guaranteed vend system to ensure customer satisfaction. For added flexibility, shelves can be customized to accommodate specialty products, including large or uniquely sized items.
