PRODUCT CAPACITY & FLEXIBILITY

The **VC 9007-10D ADA Compliant Mini Flex** Glass Front Drink Machine is equipped with six full shelves (five spirals and one conveyor belt), offering up to 42 product selections and featuring a 10" touch screen. This is designed with an industry-leading INTEL-Evator system, providing unparalleled flexibility for dispensing both fragile glass bottles and carbonated cans. As the smallest elevator-equipped machine on the market, it delivers a versatile and efficient solution for a wide range of beverage offerings.

DESCRIPTION

The **VC 9007-10D ADA Compliant Mini Flex Glass Front Drink Machine** offers an exceptional solution for small spaces, enabling the sale of a wide variety of products to optimize revenue streams. The machine is **compatible with the latest payment platforms**, including Grab Pay, Touch N Go, Boost, Maybank, QQR, Paywave, Payrange, Google Pay, Apple Pay, and more. Additionally, when paired with our optional Age Verification Technology, it enables the sale of adult beverages.

Innovative features set this machine apart, including a double-layered glass merchandising door with electrical heating to prevent fogging and eliminate condensation. The body is both explosion-resistant and smash-resistant, capable of withstanding up to one ton of external force. The modular design allows for customizable shelf height configurations, with a maximum of six shelves. The machine is capable of vending a range of specialty drinks, including Starbucks beverages, single-serve cocktails, traditional soft drinks, and more. A unique refrigeration system provides both cooling and heating, with temperature control ranging from 39°F to 77°F.

Additional features include a lockable cash box, a guaranteed vend system (which holds credit until the product is dispensed), and LED lighting.
