ICED COFFEE & HOT COFFEE

VC CF8N-22

Black

With a bean capacity of 3.31 lbs. and 24 lbs. of powdered ingredients divided across six canisters (4 lbs. each), this machine is designed to streamline operations and enhance efficiency for your service team. It can hold and dispense up to 180 - 10, 12 or 16 oz. cups, along with an equal quantity of lids, ensuring a smooth and satisfying customer experience. For optimal performance, the self-cleaning modular system should be used daily or at each service interval. A built-in ice maker further expands your beverage options, enabling the machine to serve chilled drinks with ease.

Factory-equipped with backend management software, this machine allows you to track sales, manage inventory, generate reports, and receive alerts for malfunctions. It is fully compatible with a wide range of modern payment platforms, including Grab Pay, Touch N Go, Boost, Maybank, QQR, Paywave, Payrange, Google Pay, Apple Pay, and more. Additionally, it features a guaranteed vend system that holds payment until the product is dispensed, as well as remote price-changing capabilities for added flexibility and convenience.
